

# TRU-LEVEL™ Container Dock Leveller

## Description

TRU-LEVEL™ Container Dock Leveller

## Webpage

<http://www.tru-bilt.co.nz/tru-dock/#tru-level-cdl>

## Product Information

The **TRU-LEVEL™** Container Dock Leveller is a hydraulic dock leveller designed specifically for loading shipping containers while still on the truck. Incorporating **TRU-LEVEL™** durability and quality, the Container Dock Leveller brings push-button simplicity to receiving trailers with 20ft or 40ft containers. The **TRU-LEVEL™** system is designed to speed loading, protect personnel and increase productivity.

## Technical Specification

- ✓ Size: 3600mm long, 2860mm wide
- ✓ Weight: approx. 1500kg
- ✓ Capacity: 11,000kg when bridged
- ✓ Working Range – 300mm above/below dock
- ✓ High tensile lip. Protrudes 393mm from dock face
- ✓ Single phase, 230V, 10A supply
- ✓ Standard, single-push button control
- ✓ Hydraulic activation of front lip – hydraulics mounted under leveller at back in pit recess
- ✓ Finish – Sandblasted with industrial paint finish
- ✓ Two rubber bumpers included
- ✓ Two LB165GY Bollards to protect front rams

## NOTE

- The leveller parks on an angle when not being used. If you require the leveller to be parked horizontally, include part No. CD3600-3B.
- If the leveller is being used for Reefer Containers include part No. CD3600-EL to extend the front lip out to 600mm from dock face.
