Product Information

KNUFFI® Impact Protection provides durable, flexible, multi-purpose protection from corners, edges and surfaces. Absorbing hard impacts and preventing injury or damage, KNUFFI® is a simple, highly effective warning system for marking obstacles and sources of danger, e.g. transport routes, machinery, walls, thoroughfares, shelves, gates and more. KNUFFI® is resistant to temperatures from -40°C TO 100°C and damp, making them perfect for use indoors and out.
