Product Information

The **TRU-SEAL™** Dock Shelter is a heavy-duty PVC cover for simple dock environmental control. Designed to receive a large range of truck sizes, the **TRU-SEAL™** Dock Shelter provides a flexible shield between loading dock and vehicle, giving protection from the weather. Made from tear-resistant PVC, the **TRU-SEAL™** system is hard-wearing and highly cost-effective. Proven across New Zealand, the **TRU-SEAL™** Dock Shelter delivers the highest degree of environmental control for the price.
