## Product Information

TRU-SLIDE™ Heavy Duty Multi-Leaf Automated Doors are custom-built for industrial applications such as aircraft hangars. Suitable for purposes as large as your imagination, the TRU-SLIDE™ system is a true heavy-weight in the market. Currently in use in such industries as aviation and mining, this multi-leaf, wide-span sliding door system is extremely durable and available in a variety of configurations and architectural claddings. Purpose designed for each project, standard TRU-SLIDE™ features include a flush bottom track, floating captive top and emergency release.

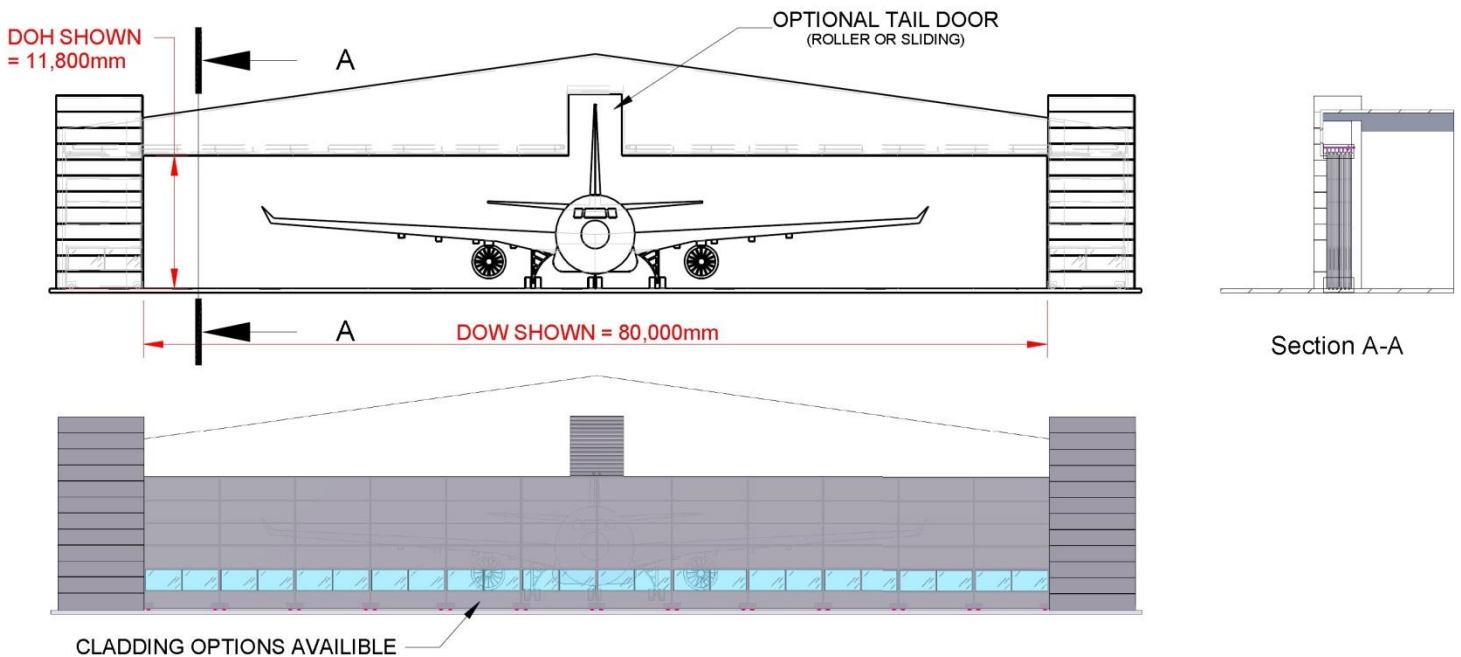

## Technical Specification

- ✓ Max Size: Unlimited height and width
- ✓ Radio Remote operation for increased safety.
- ✓ Recessed floor tracks giving smooth transition for aircraft.
- ✓ Vast range of cladding options including Colorsteel, glass, timber and more.
- ✓ Unique kitset design for ease of delivery to your site.
- ✓ Suitable for high wind regions, can be engineered to your site specific terrain category.
- ✓ Rugged design with few moving parts gives high reliability in harsh environments.
