## Product Information

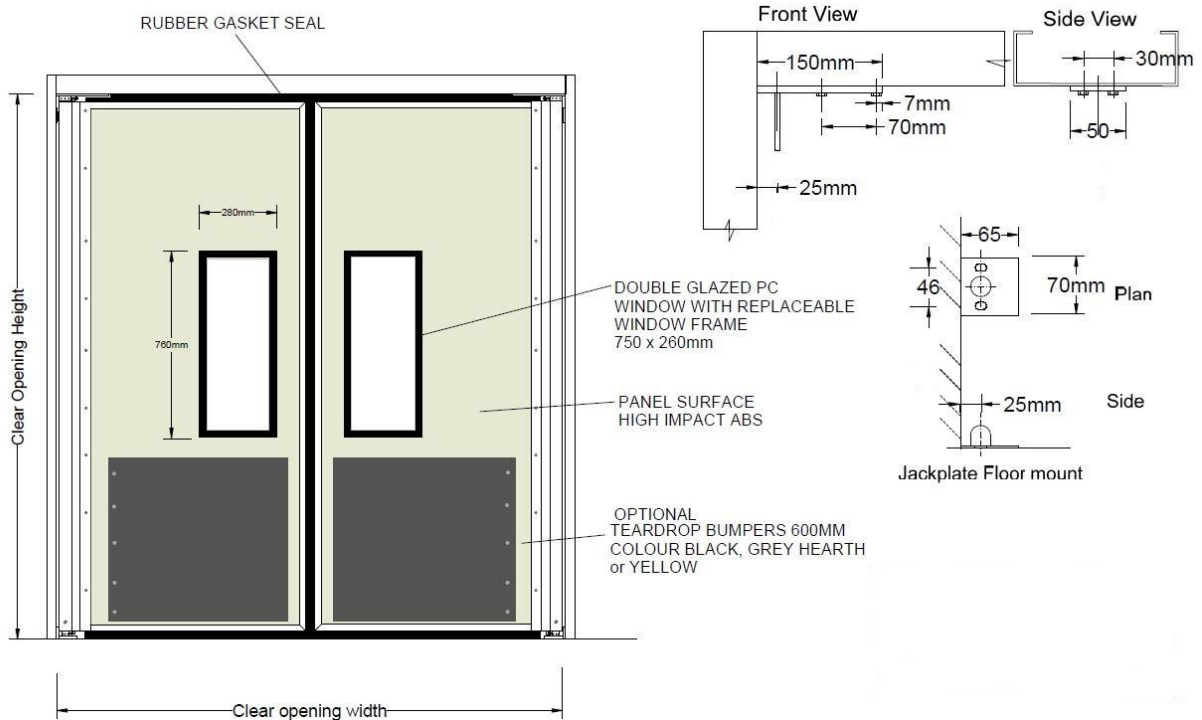

**TRU-SWING™ Rigid Doors** are a heavy duty solution for environmental control in demanding situations. The applications that this door can be used in are huge such as food industry, warehouses, and workshops. The doors open from either direction in a 180-degree area and automatically return to the closed position with the concealed spring. **TRU-SWING™ Rigid Doors** will help you provide a better working environment providing control of temperature, dust, noise and wind. The operation is very quiet making the doors excellent for supermarkets, kitchens, process rooms and hospitals.
