Product Information

TRU-TRAC™ is a complete sliding door system that can be used for closing openings up to 5m high and any width with a maximum individual panel width of 5m wide. TRU-TRAC™ Sliding Doors are constructed from high strength galvanized steel that gives a highly durable and weather resistant door system that is suited for internal or external applications. The heavy-duty wheel and track kitsets are made-to-measure, delivered ready for assembly and installation. Designed for light-to-medium scale projects, the TRU-TRAC™ sliding door system is an economical solution for Aircraft Hangars, Farm Sheds and more.

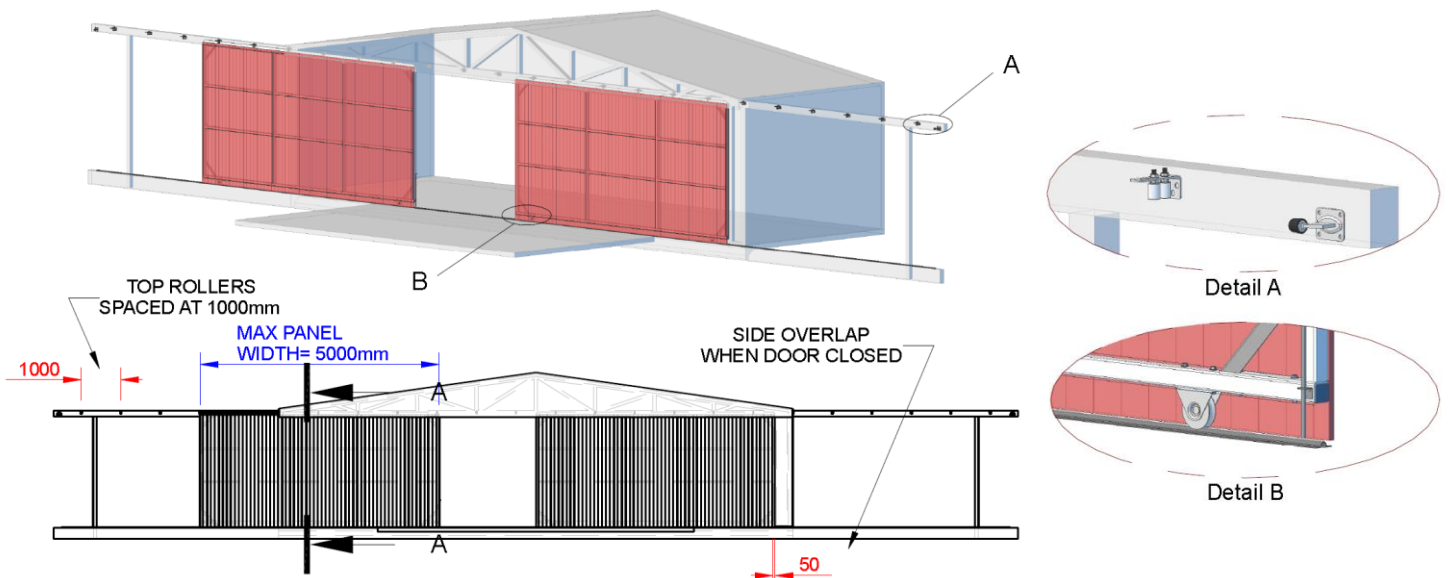

Technical Specification

- ✓ Max Size: Up to 5.0m high and unlimited width (max panel size 5.0h x 5.0w)
- ✓ Unique kitset design for ease of delivery to your site.
- ✓ Easy manual operation.
- ✓ Heavy duty rollers with sealed bearings.
